

NB4

Single Ended Load Cell Weighing Sensor For Hopper Scales NB4

Single Ended Load Cells are ideal for a wide range of applications such as hopper scales or fixed suspended weigh systems, process weighing and low profile installations. The Shear Beam load cells are easily mounted on top with threaded hole and two through holes.

Item NO.:NB4

- Product Origin: China
- Shipping Port: Xiamen
- Payment: 100% payment before shipment
- Capacities: 10 T
- Material: Steel Alloy
- Dimension: 225.6*54*50.8mm
- Rated Output: 2.0 or 3.0mV/V
- Protection Class: IP67 / IP68

Product Details

Single Ended load cell weighing sensor for hopper scales NB4 (10 T)

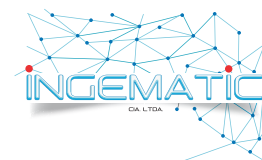

Single Ended Load Cells are ideal for a wide range of applications such as hopper scales or fixed suspended weigh systems, process weighing and low profile installations. The Shear Beam load cells are easily mounted on top with threaded hole and two through holes.
